### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the claims:

Claim 4, line 8, the phrase "a said container" has been changed to --said container--.

The above change was done to clearly define the invention.

3. The following is an examiner's statement of reasons for allowance of claims 4-6: The prior art did not teach or suggest a high pressure fluid spraying apparatus as claimed by the applicant, specifically an apparatus comprising a first high pressure pump having an inlet connectable to a source of carrier liquid, a first high pressure regulator connected to the first high pressure pump, a second high pressure pump having an inlet connected to a container to receive additive, a mixing device comprising an enclosed housing defining a chamber having an inlet port and an outlet port, which inlet port is fluidly connected to the first regulator for receiving high pressure carrier liquid, an injector sealingly connected to the housing at a position that is substantially a 90 degree angle to the longitudinal axis and which is equidistant between the inlet port and the outlet port, the injector also containing an inlet being fluidly connected to the outlet of the second pressure pump for receiving high pressure additive and a wand having an inlet and an outlet wherein the inlet is connected to the outlet port of the mixing device, together

in combination with the other claimed features of applicant's invention. The closest prior art, Miller, did not teach or disclose the above combination of limitations and it would not have been obvious to one having ordinary skill in the art at the time the invention was made to modify the Miller apparatus to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
